

## FRCC Mapping Tool Reference Condition Table

Last Updated Tuesday, 18 January 2011

The Fire Regime Condition Class Mapping Tool installation file automatically installs a reference condition table with data from the following reference condition models: 1) FRCC Guidebook models for the Western U.S., Eastern U.S., and Alaska, 2) the LANDFIRE National model, and 3) the LANDFIRE Rapid Assessment models for the conterminous U.S.

Downloading Reference Condition Tables:

Step 1: Install the mapping tool:
