April 16 -17, 2014

Glenwood Springs Community Center, 100 Wulfsohn Rd.
Glenwood Springs, Colorado

COLORADO WILDLAND FIRE CONFERENCE: The True Cost of Wildfire

Join a host of experts and federal, state and local fire managers as they explore the true cost of wildfire in our communities. Learn about current issues regarding wildfire risk in Colorado, and the short and long-term impacts your community might encounter during a large wildfire event.

This is a great opportunity for local community leaders to listen and dialogue with experts in the fields of wildfire suppression, recovery, and mitigation. The conference is geared towards community leaders, local government/elected officials, and professional planners, but anyone is welcome to attend!

More information coming soon!
