Resolution of the SavedQueries error

If you see this error:

FFI Error	×
×	Could not find a part of the path 'C:\ProgramData\FFI\SavedQueries'.

FFI-Lite has not created the SavedQueries folder automatically and you need to create it yourself.

Follow these steps to fix the error:

 Open Windows File Explorer and try to navigate to C:\ProgramData\FFI. There should a subfolder named *MasterSpecies* already in the folder. If the *ProgramData* folder is visible skip to step 6. If the folder is not visible, complete steps 2 – 5.

→ This PC → OS (C:) → Program	mData → FFI
Name	
MasterSpecies	

2) In File Explorer, click **View** at the top of the File Explorer window.

3) Click Options.

Navigation Details pane	Extra large icon Small icons ET Tiles	ns ■ Large icons BB List ■ Content	Details	* * *	Sort by •	☐ Group by ▼ ☐ Add columns ▼ ☆ Size all columns to fit	 ☐ Item check boxes ✓ File name extensions ✓ Hidden items 	Hide selected	T N
Panes		Layout				Current view	Show/hide		5

4) a) Click the **View** tab, b) highlight the radio button to **Show hidden files, folders and drives** and c) click **OK**.

Folder Options	×
General View Search	
Folder views You can apply this view (such as Details or Icons) to all folders of this type. Apply to Folders Reset Folders	
Advanced settings:	
 Files and Folders Always show icons, never thumbnails Always show menus Display file icon on thumbnails Display file size information in folder tips Display the full path in the title bar Hidden files and folders Don't show hidden files, folders, or drives Show hidden files, folders, and drives Hide empty drives Hide extensions for known file types Hide folder merge conflicts 	
Restore Defaults	
OK Cancel Apply	

5) In File Explorer, navigate to C:\ProgramData\FFI
